PROJECT PROPOSAL & SPECIFICATION

Date: October 19, 2026
Ref: #PROP-2026-FI-001

ForceIndia Trailers Digital Growth Platform

Enterprise Web Architecture, Cloud Edge Hosting, Technical Fleet Showcase, and Direct Lead Acquisition

SERVICE PROVIDER

ASVEX Technologies

Proprietor: **Abhayraj Singh**
Email: abhay@asvextech.com • Phone: +91 98924 69015
Location: Mumbai, Maharashtra, India

PREPARED FOR CLIENT

ForceIndia Trailers

Attention: **Management & Operations Director**
Live Platform: **force-india.vercel.app**
Location: Maharashtra, India

✓ System Development, Cloud Infrastructure & Domain Live

The official institutional platform has been custom engineered, deployed onto Vercel's global edge serverless network, and connected with instant WhatsApp direct-calling lead capture channels for immediate transport operator acquisition.

1. Executive Summary & Strategic Vision

Commercial fleet operators, logistics companies, and freight transport businesses evaluate trailer manufacturers heavily on mobile devices while managing on-ground logistics. A slow, generic, or outdated website creates friction and causes high-value fleet orders to bounce to competitors. ForceIndia produces heavy-duty, high-payload trailers built for extreme Indian road conditions. This platform translates that engineering strength into a 24/7 lead acquisition engine.

Pillar 1: Mobile-First Showcase

Dedicated showcase hubs for Flatbed, Skeletal, and Custom Trailers with sub-second load times and sticky thumb-navigation.

Pillar 2: 3D Engineering Authority

Interactive chassis diagnostics, payload stress visualizers, and downloadable engineering PDF spec sheets.

Pillar 3: Instant Lead Funnel

1-tap WhatsApp consultation, direct phone dialing, and customized trailer quotation request builder.

2. Return on Investment (ROI) & Commercial Impact

✓ **Capture High-Intent Commercial Fleet Searches**

When logistics managers, transport contractors, and fleet operators search for heavy-duty flatbed or skeletal semi-trailers, the platform provides an immediate, trustworthy first impression that converts searches into direct sales calls and quotation inquiries.

✓ **Drastically Reduce Lead Drop-Off via 1-Tap WhatsApp & Calling**

Logistics managers rarely fill out long web forms while in transit. The persistent mobile action dock provides 1-tap WhatsApp consultation and instant phone dialing, routing high-intent buyers straight to your sales team before they bounce.

✓ **Command Tier-1 Brand Authority with 3D Diagnostics & Spec Sheets**

By displaying multi-angle structural chassis breakdowns, payload stress analysis, and official technical spec sheets for download, ForceIndia is immediately positioned as a precision engineering leader compared to unbranded regional fabricators.

✓ **Sub-Second Mobile Load Speeds on 4G/5G Cellular Networks**

Deployed on Vercel's global edge network with automated asset pre-compression, delivering instant load times across all Indian transport corridors with zero server crashes or local hosting maintenance overhead.

3. Scope of Deliverables & Cost Breakdown

The total fixed commercial investment for the complete ForceIndia Digital Growth Platform is structured as follows:

MODULE / SCOPE COMPONENT	FEE (₹)
Full-Stack Multi-Page Web Platform & Mobile-First Fleet Showcase Mobile-first architecture across Home Hub, Flatbed, Skeletal, and Custom Fabrication hubs with sticky bottom action dock.	₹3,500
Interactive 3D Engineering Diagnostics & Visual Breakdown Engine Chassis breakdown, payload stress visualizers, high-definition trailer video streaming, and configurator hooks.	₹2,500
High-Performance Serverless Cloud Hosting & Edge CDN Vercel Global Edge Network deployment, automated GitHub CI/CD, SSL certificates, and 99.99% uptime guarantee.	₹2,000
Lead Acquisition Architecture & WhatsApp Direct-Connect Integration 1-tap WhatsApp consultation funnel, phone dialer integration, technical PDF spec sheet distribution engine.	₹1,000
Full Code Ownership Handover, IP Rights & 30-Day Technical Warranty 100% transfer of code repository ownership to the client, operational handover, and 30 days of warranty support.	₹1,000
TOTAL PROJECT INVESTMENT:	**₹10,000**

4. Milestone & Acceptance Sign-Off

Milestone: Full Delivery & Go-Live Handover (Complete platform live at **force-india.vercel.app**, Git repo active, 3D diagnostics verified).
Investment Amount: ₹10,000 (Payment Due Upon Handover).

💵 **Payment Settlement:** Cash settlement upon in-person handover and administrative walkthrough is supported. Direct UPI transfers (**abhayrajs366@oksbi**) or NEFT/IMPS bank transfers are also accepted.
